

Ascension and Initiation

When a human being begins to demonstrate that he is more fully developing the quality of his Ray and he is showing more compassion and humanity to his group, a series of tests will be put forward. How well the emerging disciple does will determine whether further stages of tests (Initiations) will be put forward. Each stage achieved furthers man's individual spiritual (and subsequently physical) development. It is through these stages of Initiation that man will emerge a true being of light and all humanity will be transformed.

The thought-form energy of an Initiate is higher and of a purer frequency than a lower aspirant. It is necessary for a human to achieve the 6th Major level of Initiation to be free of the physical cycle of rebirth. The majority of humans have completed their 1st initiation and are working towards their 2nd Initiation.

However, the Initiation of even the lowest form on earth ripples through and has consequences with the highest levels of existence even to the God force itself. Again, the Thoth/Hermes Hermetic Law applies: *'as above, so below – as within, so without'*

Just as life forms on earth ascend with initiation so do the Divine Beings and the Masters. When there is a down-pouring of energy to Earth this is mirrored by a down-pouring of energy at the highest levels. The great down-pouring of energy from Above to the Masters has its effect on the smallest mineral on Earth.

There have been many upheavals on the Earth these past 150 years. This was partially caused by Sanat Kumara preparing for His next major Initiation as He prepared to Ascend. There was a cosmic down-pouring of energy to assist in this process, which was completed quite recently. Lord Buddha has taken over the Office of the Lord of the World; this upheaval 'On High' contributed to the upheaval down low. At the same time, many of the Masters were being assisted by this Cosmic energy as they underwent preparation for Initiations and they in turn Ascended to higher levels. On the Planet of Polarity and Free Will, this down-pouring of energy created an interesting phenomena; it highlighted the good in the good and the bad in the bad.

Why?

Clear, pure liquid will turn brown if mixed with a dirty substance and there is usually some sort of chemical reaction; there is a "conflict" within the 2 liquids. The liquid will only become clear again when enough pure liquid is poured in and the critical mass is reached causing the change. This great Ascension process, where the Masters and the Humans benefit from accelerated Initiations, is only now becoming clear as the intensity of the conflict is being overcome and the clear liquid is finally cleansing the dark liquid. The Brothers of Darkness, through their control of the weak human lower-ego, are now finding that, as more light pours in, humans are choosing to move towards unity and peace. A New Age is dawning.
