

Energy Awareness Workshop **Auras & Psychic Phenomena**

Do you find that you start the day feeling great but after a short time, you start to feel drained, grumpy or just down right depressed? Did you know that this can be the effect of another's energy on you?

During this workshop, you will learn about your energy body, the aura and your chakras. You will learn how another's energy and *thoughts* can impact on you.

This is a very practical workshop, which is easy to implement into your day-to-day life.
